Amendments to the claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of claims:

1. (Currently amended) A template for evaluating and scoring designated pairs of responses to a series of questions, said template comprising a series of paired locations thereon, a first set of said locations being linked by indicia on said template, a pathway leading from said first set of locations to at least a second set of locations, said pathway being shown by said indicia for leading a user from said first set to said second set of locations, each of said locations ~~allowing for~~ having means for allowing viewing through said template.
2. (Original) A template as defined in claim 1 wherein said indicia comprises a series of lines connecting the sets together.
3. (Original) A template as defined in claim 2 wherein said indicia is comprised of a series of alternating solid lines and broken lines.
4. (Original) A template as defined in claim 1 wherein each pair of locations is identified by a common geometric shape.
5. (Original) A template as defined in claim 4 wherein each

pair of locations is identified by an identical geometric shape, and the next consecutive pair in said series is identified by a different geometrical shape.

6. (Currently amended) A method for evaluating designated pairs of responses to a series of questions, said method including the steps of positioning a template upon an answer sheet, and following a pathway for identifying pairs of ~~answers~~ responses to a plurality of paired questions, and evaluating said pairs of ~~answers~~ responses to said paired questions.

7. (Original) A method as defined in claim 6 wherein said pathway is comprised of a continuous line.
